

TNC Meets “Cash For Clinics” Challenge! Tatenda! Thank You!

Tatenda! Thank you! No matter what language we use, words seem inadequate to express our gratitude for your contributions to **The Nyadire Connection** (“TNC”) and our “Cash For Clinics” challenge.

As you may recall, TNC has partnered successfully with the United Methodist Mission in Nyadire, Zimbabwe to rebuild rural health clinics. Since 2013, **four of six clinics have been refurbished**, on-time and on-budget, and work continues on the next clinic, Mashambanhaka (shown above). To help complete this clinic, **The United Methodist Foundation of Western Pennsylvania** (“UMF”) issued TNC a challenge grant: UMF agreed to match up to \$25,000 of donations received by TNC by Dec. 31, 2020.

Thanks to your abundant generosity and support, we’re pleased to announce that **we exceeded our goal, met the challenge and will receive the UMF matching grant**. We will continue our efforts to raise about \$22,000 more to complete Mashambanhaka, which has a total cost of about \$274,000. In addition, later this year we plan to begin raising funds for the sixth and final clinic, Chindenga. When we began the clinics project, we didn’t know where the funding of nearly \$2 million would come from, but we have been amazed and awed by God’s hands at work and by your generosity and support. Again, we say: **Tatenda! Thank you!**

To continue supporting the clinics project, you can **donate through the following link** on TNC’s website:

<http://www.nyadire.org/donate.html>

Please specify that your donation is for Rural Medical Clinics.

Donations to TNC are tax-deductible.
