TNC Meeting Minutes

Aug 27 2018 - CUMC - Room B113

I. General

- A. Election Challenge - The Zimbabwe Constitutional Court has upheld the election of President Mnangagwa stating that the challenge brought general concerns but not specific information as would be required to prove their case. President Mnangagwa was sworn into office on Sunday, Aug 26.
- B. TNC now considers 8 of our previous programs as either Inactive or On Hold. We will comment on any new developments, but generally will only track the 13 active programs now organized into 3 areas.
- C. Morris Taber passed away on Aug 3. Morris, along with his wife Ann, worked in ministry with Zimbabwe for many years with an emphasis on establishing libraries. Morris worked together with TNC on numerous projects such as sending a container filled with children's books to Zimbabwe.

II. Health - (Mark LaRosa)

- A. Container Shipments - (Drew Harvey & Rev L. Mukundu)
 - 1. The container which included many items for Nyadire arrived at Mutambara mission on July 7. Nyadire has collected but not yet distributed these items.
 - 2. The next container shipped to Zimbabwe will primarily include furnishings for Dindi Clinic and is scheduled to depart Pittsburgh Oct 15. We may have more items than the container will hold, and if so we will either prioritize and send remaining items in a later container, or if funds are available a second container might also be shipped. Items for the container in my suggested order of priority are:
 - a) Furnishings for Dindi - beds, cabinets, chairs, etc. as per provided list
 - b) 2 Birthing Beds purchased at a price of \$3000 each. One for Dindi and one for Munyanyari Clinic.
 - c) 2 Solar Powered Sewing Machines from GCC

- d) 100 Life Straws from Faith Community UMC
- e) Suture for Nyadire Hospital if available
- f) Survey Equipment for Africa University if received
- g) Eyeglasses from Don Z and donated eyeglasses from BBF
- h) 7 PET Carts
- i) About 100 boxes of Backpacks (HOHO & HI)
- j) Sewing machines and GEP materials
- k) Blankets and Caps from St Paul's UMC (~12 boxes)
- l) Medical supplies and other items at TNC Storage Unit
- m) 10 - 20 boxes of Educational Supplies
- n) Birthing Kits in bags as possible to fit into spaces available.

Priorities will be discussed and agreed upon.

3. BBF received \$750 as a grant from the Pittsburgh Foundation "for the Nyadire Connection for eyeglasses donated by Mission Vision." Funds were directed by the "Wellman Prozen Fund" and will be used toward the shipping expense of the Nyadire Ocean Container.
4. Dave Talbot & "Healing Hands Across Zimbabwe" will provide \$3000 to BBF for purchase of a Birthing Bed to be used at Munyanyari Clinic.
5. Brother's Brother Foundation will host a Gala celebrating it's 60 years of operation on Sept 20. Event will be held at Heinz Field and tickets, or tables, can be purchased thru the BBF website - <https://brothers-brother.org>

B. Eye Glasses - (Don Ziegler & Dr Larry Tanyanyiwa)

1. Pittsburgh Based Activities:
 - a) Sara Dickey attended a women's retreat at Camp Allegheny and learned they had produced 150 girls empowerment pad kits. She has connected this program with Bonnie Lawson.
 - b) Preparations for the September 9th sewing party are underway. A Facebook fund raiser was held and close to 600 dollars was raised (before fees). These funds were used to purchase PUL (new source), flannel and soap.
 - c) Linda Ambroso prepared a press kit and made contact with her media sources to promote the sewing party. The event has been posted in numerous Facebook groups. Emails have been sent to churches and other supporters.

- d) A temporary sewing machine repair workshop was established. Of the eleven machines awaiting repair, six have been completed and packed for shipment. There are four to six additional machines that have not been collected.
 - e) Working with Charity and Crescencia to establish priorities for the program. I have asked each of them to review the progress of the program and develop plans for the future.
 - f) Preparation for October shipment: This will be a large shipment that reflects the input from both Charity and Crescencia. Manual machines are in short supply but some very nice electric machines have been donated that will help support the school vocational program needs and the clinics.
2. Nyadire Based Activities:
- a) Hospital/Clinic Based Programs: Crescencia reported the following: The GEP is a wonderful program. Our mothers are benefiting a lot from it and wish to continue with it. At Dendera we are extending the program to high school girls and church ladies to empower the women also. This will help to include the girls out of school. This means the need for more kits and another manual machine for the Dendera clinic.
 - b) School Based Programs: Charity provided a summary report (see details in earlier reports) and the individual reports from the schools. Charity reports that the new curriculum advocates practical work, so the sewing machines are helpful in the implementation of the new curriculum. Six schools participate in the program. She reports that the health books are a blessing to the children and that they are self-explanatory. Charity is coordinating the request/design of storage options at each school.
3. Shipments: Crescencia and Charity has been following up on the status of the last shipment. It contains a machine for Dindi and 500 educa-

tional books for the school program in addition to kits and sewing supplies.

4. Workshops/Presentations Scheduled:

- a) September 9th: 3 pm to 6 pm. Sewing party at MLUMC.
- b) Fall Sewing Party: Senior Project Ava Ekstam (Dutilth UMC). Date to be determined.

D. Medical Supplies - (Irina Sheyko & Wilson Nhamoinesu)

1. \$3000 was transferred directly to the Nyadire Hospital account so that they may purchase drugs from suppliers other than PCD. Receipts and invoices are required as this revised method is evaluated.

E. Rural Health Clinic Rebuilds - (Ralph Duckworth & Rev Austern Chepiri/Hannah Mafunda)

1. Rebuild of Next Clinics

- a) Construction work continues at Munyarari Cinic which is one of the 5 clinics administered by Old Mutare Hospital.
- b) DINDI - GBGM approved \$278,944.57 for the rebuild of Dindi Clinic. However, construction work cannot begin until the grant agreement document is received from the Global Health Unit. TNC is working with BBF to obtain clinic furnishings which will be sent via ocean container in mid October
- c) The Spanish NGO "Child Future Africa" visited Zimbabwe and Nyadire and reviewed the Rural Health Clinic Rebuild program. They plan to build some educational facilities and a small health clinic near Mount Darwin, Zimbabwe.

F. Medical & Hospital Support - (Sue Bower & Dr Larry Tanyanyiwa)

1. Neither BBF nor Global Links were previously able to supply suture according to types requested by Nyadire. In anticipation of the upcoming container shipment, we have again requested suture and whatever is available will be included with the container.
2. The power controller for the autoclave at Nyadire hospital has failed again. CHOLEN has quoted the supply of a new control power unit at \$295 and a line conditioner for approximately \$350. There have been numerous exchanges with ZACH to obtain the duty free certificate, but we currently await the certificate before parts can be shipped. TNC will fund the transaction.
3. Blessing (18 yr old Nyadire High School student):
 - a) Awaiting response from Dr Nyabereka & Dr Tanyanyiwa to recommendation for treatment made by 2 doctors from Three Rivers Orthopedic Association.

4. Reports from Nyadire have not been received confirming that funds have been collected for the Solar Light Maintenance Fund.
5. The EWB student team is working to identify a Technical Mentor with specific skills and experience in Biogas.
6. The idea of developing an employment model by training students to perform specific coding operations looks viable only if we can find capable organizations that might be willing to expand to Zimbabwe. Three businesses would be required - 1) Web Application Training, 2) Western companies looking to contract coding work, 3) An employment organization that matches trained individuals to employers. D. Harvey will have a first call with the organization "Team4Tech" which utilizes tech volunteers to train on specific projects in underserved areas. <http://www.team4tech.org/>.
