The Nyadire Connection (TNC)

- Founded in 2006, The Nyadire Connection (TNC) is a **faith-based, all-volunteer**, non-profit organization that has built a mutually beneficial relationship with the Nyadire United Methodist Mission in northeastern Zimbabwe, Africa
- TNC was formed after a group of Pittsburgh-area residents visited Nyadire on a mission trip and returned with a passion to support the Mission and **build lasting relationships** with the people living there and in the surrounding areas
- **Working closely with local leaders** at the Mission and United Methodist Church leadership in Harare, Zimbabwe, TNC currently provides administrative and financial support for 11 programs focused on three areas: Health, Orphans, Education/Relationships
- To date, TNC's network – churches, individual donors and partner organizations – have **provided more than \$5 million of financial support** to the Mission
- TNC provides program oversight through frequent mission trips; regular communications with our **partners in Nyadire**; and monthly TNC leadership meetings/minutes, which are available on our website at www.Nyadire.org

Zimbabwe

- Gained independence from England as “Rhodesia” in 1982; one of the last African countries to separate from its colonizer; initial prosperity declined in the late 1990s
- Once called the “Breadbasket of Africa,” the country has a strong history of excellence in education, health care and agriculture, with a very high literacy rate
- Zimbabwe government: Robert Mugabe served as an authoritarian President from 1982-2017 when he was replaced by Emmerson Mnangagwa; ruling party is Zanu-PF
- Struggles continue with 90% unemployment, failing social services, unstable currency and extreme cash shortages; 70% of people live in chronic poverty, and shortages of food, water, and electricity are common
- Amid these struggles, TNC continues to build relationships and provide life-saving, critical aid and services, thanks to our many supporters and partnerships

Pennsylvania and Zimbabwe

- Zimbabwe is 3x the physical size
- Zimbabwe population about 10% larger (14.7M vs. 13.1M)
- Metropolitan Harare: 2.8M
- Metropolitan Pittsburgh: 2.4M

Programs

- TNC maintains 11 ongoing programs, focused on Health, Orphans, and Education and Relationships
- Each program has a leader in the U.S. and a leader in Zimbabwe
 - Hospital support
 - Rural clinic renovations
 - Agriculture
 - Girl Empowerment Pad
 - Eyeglasses
 - Home of Hope
 - Home of Hope Outreach/School Sponsorship
 - CMU Engineers without Borders
 - Hearing Innovation
 - Volunteer-in-Mission Teams
 - Scholarships

Hospital Support

- We collaborate with the clinical team at Nyadire Hospital, including physicians, nurses, and pharmacists, to assess and prioritize the hospital's essential needs
- Initiatives can include equipping the operating rooms, supporting the Nursing School, repairing laboratory equipment, supplying the obstetrics unit, repairing the hospital facility and vehicles, funding medicines for patients, delivering supplies through mission trips
- Program Leader: Mark LaRosa, marklarosa@comcast.net

Rural Clinic Renovations

- TNC has joined with the Nyadire mission and the Zimbabwe Ministry of Health to fund and coordinate the renovation of six rural health clinics, at a cost of about \$320,000 each. By providing funding and administrative support, TNC has enabled Nyadire to contract with a local builder who, in turn, hires a local work force to rebuild each clinic. TNC and UMC representatives regularly communicate and monitor the construction process to ensure quality control and on-time, on-budget projects
- Program Leader: Ralph Duckworth, taxplan1951@gmail.com

Agriculture

- The program evaluates funding requests from the mission for agricultural-based projects and works with people there to develop the requests into a business plan that includes a cash flow analysis
- The Nyadire Mission had a working farm prior to 2000, with about 150 acres cultivated. Because of government land reforms in 2001, activities dwindled. Today, the farm grows garden produce year-round and maize during the wet season but only produces a fraction of what was once grown, and there are no dairy cows left
- Program Leader: Scott Sanford, sasanford56@gmail.com

Girl Empowerment Pad

- In Africa, girls fall behind their male peers academically due to a lack of feminine hygiene items that forces girls to miss school, often for days. In addition to the girls, also affected are African women and those working in and around TNC's orphanage, schools and clinics
- We provide funding for feminine hygiene kits, along with culturally and developmentally appropriate hygiene education, to help girls and women manage these monthly needs
- Program Leader: Bonnie Lawson, bonnielawson58@Comcast.net

Eyeglasses

- Partnering with Mission Vision, TNC provides eye exams and eyeglasses to improve vision. TNC volunteers have been trained and certified to conduct eyeglass clinics by Mission Vision, which also provides used eyeglasses. The TNC volunteers then train other medical personnel in Zimbabwe to conduct additional clinics
- Program Leader: Natalie Geer, nataliegeer32@gmail.com

Home of Hope

- The Home of Hope is home to 17 orphans, living on the Nyadire Mission. For \$40 per month, TNC sponsors can cover expenses for their food, clothing, housing, medical and school fees
- Program Leader: Mary Beth Zollars, Mbzollars@aol.com

Home of Hope Outreach/ School Sponsorship

- We also sponsor more than 400 orphans attending rural schools who might be living with a relative or by themselves. A \$100 annual donation covers school fees for one child for one year
- Program Leader: Marie Hunt, emptynest05@Comcast.net

CMU Engineers Without Borders

- Engineers Without Borders (EWB) is an international organization where professional engineers volunteer to resolve challenging technical problems globally. Carnegie Mellon University (CMU) has a student chapter of EWB that began working with TNC in 2013. Working closely with the Nyadire Mission, TNC helps to identify a specific need or challenge, such as the lack of electricity at the complex. TNC then engages the EWB chapter to develop a solution
- Program Leader: Drew Harvey, drewharvey@Verizon.net

Hearing Innovation

- The Hearing Impaired Resource Unit was introduced to the Nyadire Primary School in 1994 with the help of the community, church, and Ministry of Education. It serves as a special education school, with one of the few hearing programs available in the entire province. The opportunity to receive an education gives students an identity and voice, teaches self-reliance, provides meaningful purpose, and most importantly encourages friendship, value, and goals
- There is a fee to attend school and uniforms are mandatory along with boarding fees, because these students travel from a large distance to attend this specialized program
- Program Leader: Deborah Swineford, dsdla7@gmail.com

Volunteer-in-Mission (VIM) Teams

- TNC regularly organizes mission trips to Nyadire to offer assistance to our friends there, and to provide opportunities for our volunteers to grow spiritually by serving God, helping others and learning from the relationships we have built with the people of Zimbabwe. Prior to each trip, we meet for planning and training sessions, and we coordinate with the leaders in Nyadire. Our volunteers don't need to have special skills, and we always adapt our trips and projects to fit the abilities and interests of our team with the needs of the Nyadire Mission
- Program Leader: Molly Michael, mollyalice.michael@gmail.com

Scholarships

- Sister Rut Lindgren was a missionary nurse from Finland who lived in Nyadire for more than 35 years. To honor her legacy, TNC created the Sister Rut Scholarship, which provides financial assistance to students who are pursuing additional university or vocational education. Students apply for funds and a TNC committee reviews their comprehensive applications, selects the recipients and monitors their progress. Students must maintain passing marks and are required to conduct community service
- Program Leader: Mary Beth Zollars, mbzollars@aol.com

- Integrate, leverage skills of others
- Communication, Communication, Communication; meet face-to-face regularly
